

The Euro-Pēds Difference

- Euro-Pēds was established in 1999 as the first intensive physical therapy program in North America. They have treated over 1500 patients.
- Euro-Pēds was the first clinic to provide Suit Therapy in the U.S.
- Euro-Pēds accepts medical insurance
- To ensure quality and consistency of treatment for their patients, therapists are supervised and trained in European tools and methods on-site at the Euro-Pēds facility. As the first clinic of its kind, Euro-Pēds therapists are now some of the most experienced intensive pediatric therapists in North America.
- There are two, three, or four-week Therapy Programs available, in addition to 3-month programs for patients within commuting distance.
- Euro-Pēds therapists provide individually tailored treatment plans specific for each child's needs
- There is a consistent relationship between PT/ PTA and child for continuity of care
- Euro-Pēds encourages and offers parent education for continuation of progress at home in a detailed Home Exercise Program that features digital photos of the child
- Euro-Pēds is dedicated to pediatric clinical research
